25X1

5. [   ] telephoned saying he had   25X1
discussions with State Department concerning the AP item in The
Washington Post of 12 January 1962 of a Soviet defector. Apparently
the Department wishes the Agency to brief the Senate leadership and
possibly Senator Fulbright on the case. [   ] wished my reaction   25X1
and I explained that it did not seem at all necessary that this be done
and in fact it would seem most unusual for us to offer to brief.
Certainly I know of no occasion when these Senators have requested
information on defectors. This seemed to agree with [   ] view   25X1
that the Agency should not agree to offer briefings. However, if
there are further questions he indicated he would have [   ]   25X1
contact me immediately. He plans to notify General Cabell of this.

25X1   6. [   ] Talked with [   ] Personnel, on   25X1
25X1   the case of [   ]. [   ] indicated that an Agency   25X1
25X1   representative saw [   ] in New York but found that his knowledge
of the situation in South America was quite limited. His qualifications
have been noted but there is no immediate need for his services.
25X1   [   ] had been referred to us by Senator Jack Miller.)

25X1   7. [   ] Advised George Murphy, Joint Com-
mittee on Atomic Energy staff, that Mr. McCone had left town before
we were able to pass on to him the Committee's advice that it was
scheduling its nuclear testing hearings on 18 and 19 January, and until
we received some guidance from Mr. McCone, we were unable to
make any kind of commitment to have an Agency representative parti-
cipate. (See Journal of 11 January.) We are to advise Murphy as soon
as we have some word on this.

25X1   8. [   ] Miss Mary Miller, on the staff of the
Senate Preparedness Subcommittee, called and said that the Subcommittee
staff would like to borrow the following films from the Agency: "Crime
of Korea", AFSR 125 (C7025); "Interview with President Tito", K6815
CBS-TV and "Yugoslavia", AFIF 34. OCR/Graphics is checking on these.
